

## BUSINESS ENGLISH IN THE DEFENCE INDUSTRY

### Course Outcomes

On completion of this course the participant will be better placed to appreciate cross-cultural differences within multi-nation project teams and exercise improved business English language skills in both speech and writing. They will also feel more confident to plan, organise, engage and chair meetings in English with representatives from international defence companies, government organisations and military alliance organisations.

### Intended Audience

Non-native English speakers working in the European defence industry

### Course Modules

1. Cultural Nuances Within International Project Teams
2. English Communication Skills in the Defence Industry
3. Defence Capability Development and Procurement Within a European Context
